FACTS

LBI Pays 37 Million in Taxes to Southern!

That Means LBI Pays \$152,000 Per Student

- LBI Taxes pay the highest cost per student in the entire country by far
- LBI representation consists of only 3 school board members (Mainland has 7) But LBI taxes pay 82% of the entire budget
- LBI sends only 244 students out of a total student population of 2885

LBI PAYS 82% (\$37 MILLION) OF THE SOUTHERN REGIONAL BUDGET

The future of our children deserve more than a mediocre education that better prepares them for college challenges, goals, business ownership, professional careers or to follow their dreams.

John McMenemy has management and supervisory experience and education with a Master's Degree in Educational Studies, former Military, school teacher experience and former Mayor of Stafford Township before coming to Staff City and being in school for 20 years. As Mayor, John McMenemy devoted his entire salary to the Municipal Election, Children's Programs and Emergency Services.

Think We Pay High Tax Now?

Wait for the School Choice **EXPLOSION!**

It's time to take a leadership role and right-the-ship. We need to insist on a fair funding formula that gives LBI representation that is commensurate with LBI tax contributions. Its time LBI insists on additional Southern Regional School Board members for equitable representation. It's time LBI played a larger part in Southern Regionals educational standards and curriculum.

BRIAN Z.
"Once I started the program it was hard for 2-3 days but once I started to feel better and not being hungry while going through the program, it got easier and easier. After 30 days and my metabolic age went from 36 to 22 in 12 days. It has been over a year that I've kept the weight off and the best part about it is I have trained my body and mind to cook and eat the right foods. Learning all that is the best diet program you can ever learn."

DIANE F.
"I began the program of 175 lbs on my 43rd frame. My metabolic age was in the 40s (I was 32) and I was feeling sluggish. I remember saying that my goal was to be a "healthier version of me" and that's what I earned. In my 40 days I lost 30lb and then a bit more later so my WPP now is 138. I have really been able to maintain the fat almost away and all my numbers are in the green zone now! Also, my metabolic age now in the upper 30s, well below my chronological age!"

KATE S.
"I finished the 40 days of the end of March, 28 pounds down. For the next 4 weeks I used the fact that I was taught by the wonderful staff to maintain my weight even while on vacation or on all inclusive resort. When given the green light, I was able to lose 10 more pounds on my "vac", but still using NutriMost tools and support. I am 28 pounds down now and am thrilled to be feeling so much more energetic and healthy."

Describe what you're wearing:

They told me it was casual Friday and I'm just "That Guy."

When I grow up I will be:

On the cover of GQ Magazine; I'm told I'm a natural.

My favorite place to visit:

A lap. I'm a great sidekick.

If I were a food I'd be:

Chocolate cake, 'cause I'm so sweet and delicious.

Anything Else?

The calls come often in the middle of the night. A teen has run away from home and has nowhere to go. Or a parent is at their wit's end dealing with an escalating situation and needs assistance. Anchor House Shelter is a safe haven for teens ages 12-17. Youth and parents can call for help 24/7. In addition to the Shelter we have programs for all youth who need a helping hand to:

- Leave the streets
- Escape from exploitation or abuse
- Find a safe place to live
- Re-learn essential life skills to overcome trauma
- Return to school
- Find and keep a job
- Learn how to live independently

Homeless youth are an invisible population that do not really see themselves as being homeless. They often bounce from relatives' or friends' couches until they outstay their welcome, and ultimately end up on the street. They just want a safe place to live.

Why are they homeless?

Many have run away from abusive and neglectful families or are aging out of the child welfare system. At Anchor House, they learn how to overcome their multiple traumas, build social and community connections and live productive, independent lives.

Growing up is more difficult than ever. Many of our youth face significant challenges and do not have a family support system to lean on. They demonstrate great determination and courage in meeting these challenges. Your donation will help us to keep our doors open and continue to provide our street outreach efforts to identify homeless youth in need.

Our youth will be extremely appreciative of your support.

ANCHOR HOUSE PROGRAMS INCLUDE:
THE ANCHOR HOUSE SHELTER | SCHOOL OUTREACH | ANCHORAGE TRANSITIONAL LIVING
ANCHOR LINK TRANSITIONAL APARTMENTS | CONNECTING YOUTH | ANCHOR LINK STREET OUTREACH

YOUR DONATION IS TAX DEDUCTIBLE. ANCHOR HOUSE IS A 501C(3) NON-PROFIT.

RWJBarnabas HEALTH

LET'S BE
HEALTHY
TOGETHER

YOUR GUIDE TO HEALTHY LIVING IN THE GARDEN STATE

RWJBarnabas HEALTH

Two Visionary Leaders are Now One

on March 30, RWJBarnabas Health and Robert Wood Johnson Health System announced the completion of the merger of their two health systems to form the most comprehensive health system in New Jersey — RWJBarnabas Health. The partnership creates a new organization that will reach approximately 1 million people — more than half of the state's population — and that will advance the health of the region.

Early in October, RWJBarnabas Health president and chief executive officer, Douglas M. Barnabas, and RWJBarnabas Health's president and chief executive officer, Stephen K. Jones, former president and chief executive officer of Robert Wood Johnson Health System, and Robert Wood Johnson University Hospital, serving as chief academic officer in the office of the president.

The new system will train more than 1,000 residents and interns annually and embrace the mission of academic medicine, which includes quality clinical care, joined with groundbreaking research and a commitment to medical education, through a combination of leading academic and teaching medical centers and numerous community hospitals. RWJBarnabas Health will continue to attract and retain the best health care professionals and physicians, and together prepared to strengthen the health of the state's diverse population.

As announced by Robert Wood Johnson University Hospital's 40-year partnership with

Robert Wood Johnson Medical School, and the pioneering programs sponsored by RWJBarnabas Health's medical centers, our respective health systems have served as the training ground for thousands of medical professionals. As RWJBarnabas Health, our commitment to education and research will be strengthened, Jones said.

The health systems contributed a combined total of more than \$500 million in community benefit services annually. These investments support charity care, food pantries, community gardens, patient education, outreach and engagement programs and programs with schools and religious groups to keep people healthy and promote wellness. Together, RWJBarnabas Health will be able to accomplish even more for the communities it serves.

"By working together, we know we can combat disease and promote wellness in our region — by making our communities healthier," Campbell said. "We will be working every day — with your help — to assure that our vision becomes New Jersey's reality."

RWJBarnabas Health is New Jersey's second-largest private employer — with more than 20,000 employees, 1,000 physicians and 1,000 residents and interns — and routinely captures national awards for its outstanding quality and safety.

Adopt Pedro

**Pedro the love-a-bull
Mighty Mutt needs YOU!**

A few years ago we rescued Pedro from a horrible state of being. He was malnourished, covered in scabs, medically untreated and rotting in a shelter. It took the wonderful support of many people to help us get him to a better physical state. We searched for a year for a home for Pedro, which was very difficult based on his medical needs and fearfulness. Pedro has spent the last 3 years with a wonderful woman who opened her heart and her home to give Pedro a chance at life. He has blossomed through her love. Unfortunately, she is now dealing with her own medical issues, and we need to help rehome Pedro. Pedro is amazing with people (looooooves to snuggle with you, toys, your amputees and all things human). He was abused and is fearful with other dogs. He is good with cats. Pedro is about 5, neutered and up to date on all things medical. The ideal home for Pedro is an experienced person or couple out of the city where he can be the object of everyone's affection and doesn't have to encounter many dogs. Again, he is great with cats.

If you can help our little Lovebug Pedro,
